## A WORD WITH YOU

Here is our 1938-39 catalogue. We hope that you will find many items listed in which you are interested. Remember, that our motto is **QUALITY, SERVICE, REASONABLE PRICES**, and upon these terms we solicit your orders.

To our friends in the trade, we are deeply appreciative of the orders given us last season, and hope that we may merit your orders for the coming season for any of your requirements which we may be able to supply to your advantage.

The excellent growing conditions and our increased acreage enable us to offer this season the finest and most complete assortment of nursery stock we have ever had.

Now, what we want to do is to share our good fortune with our customers and friends, which desire you will see reflected in the very reasonable prices at which we are offering our stock. In fact, we are offering at real bargains a few items on which we have large surpluses, and it will pay you to check our prices carefully.

Contrary to our usual custom of offering large quantities of collected stock, we are reducing this list. This is in line with our endeavor to furnish only the best of stock, and we believe nursery-grown stock will give our customers better satisfaction. However, collected stock is sometimes preferred, and for those customers desiring it, we are in position to gather any variety of trees or plants native to this section.

We call your attention to our ability to furnish large quantities of Forest Tree Seedlings and other plants suitable for park and roadside plantings; also for reforestation and soil erosion control. We have devoted considerable acreage, time and attention to this kind of stock. Also in hedge plants and lining out stock, we are able to give our customers high value at low cost.

In addition to our offer of well-grown and first-class nursery stock, free from disease, we have this season improved our grading and packing facilities, and plants will be dug, graded and packed in such a manner that they should live and grow satisfactorily. Our climate is ideal for the growing of nursery stock, with winters sufficiently cold to produce hard, fully dormant stock which ships safely anywhere.

We are equipped to handle orders of any size, large and small, and have large stocks of all leading varieties of fruits and ornamentals to select from. We can ship direct to your customers, under your tags, and thus avoid delay and get the stock to your customers in fresh growing condition. Orders filled promptly.

To our old, new and prospective customers, the Boyd Nursery Company wishes you a very satisfactory and profitable nursery season.

Cordially yours,

F. C. BOYD, Manager.

**EXTRACTS FROM A FEW OF THE HUNDREDS OF LETTERS WE RECEIVE EACH SEASON FROM SATISFIED CUSTOMERS****Pennsylvania:**

"Herewith my check for \$100.00, the same to apply on account, and I will send you the balance just as soon as I can check up on the nursery stock which I received Saturday, and which was sent out to the farm, but which I have not yet had a chance to check up. I saw the stock in bulk and it certainly did look nice.

"Kindly acknowledge receipt and let me hear from you promptly, and in the meantime I want to thank you for the pains with my order."

EXTRACTS FROM A FEW OF THE HUNDREDS OF LETTERS WE RECEIVE EACH SEASON FROM SATISFIED CUSTOMERS

Georgia:

"We are pleased to advise that the shipment of Dogwood arrived this morning in very good condition and sincerely appreciate your prompt handling of this order. We were under the impression that your stocks were dug and stored in the heel bed and that you could make immediate shipment. You did, in so far as practical anyway, didn't you?"

"Thanking you again for the prompt service and with best wishes, we are," etc.

Virginia:

"Last fall I ordered from you 7,000 black walnut seedlings to be shipped to my farm. This stock was duly received and transplanted.

"I have just returned from an inspection of the farm, including the acreage transplanted with walnuts, and it is a pleasure to state to you that the acreage transplanted with your stock measures up to the highest expectations of the most optimistic forester, as this stock speaks for itself, and its foliage is particularly outstanding and noticeable when compared with two similar shipments received from other nurseries.

"I am merely writing this letter thinking it might be interesting for you to know the general favorable comments throughout the community in which your stock was transplanted."
